13151 Middletown Industrial Blvd, Louisville, KY 40223 502.451.6100

> Peak-performance heating systems

680 Bizzell Drive, Lexington, KY 40510 859.899.0304

Circulators, pumps, air-dirt separators, heat exchangers, tanks, controls and domestic hot water recirculation.

HDPE towers, packaged cooling systems, air strippers, degassifiers and odor control scrubbers.

Commercial Space heating boilers, Water heaters and Pool heaters.

Electric boilers, instantaneous indirect water heaters, buffer tanks, blower cabinets

Heat exchange equipment, packaged water heating equipment, custom heat exchangers and systems.

Commercial and industrial boiler burners using natural gas, oil, and alternative fuels.

Innovative water treatment, conditioners and filtration solutions for a wide variety of applications.

Offering forced draft gas, electric boilers, B-Fit condensing boilers, Low Nox and knockdown boilers.

Specializing in pumping, agitation, mixing, separation and application technologies for fluids of all types.

Condensate return pumps, boiler feed systems, vacuum condensate systems and accessories

Commercial, Industrial, Municipal water and wastewater pump products.

Wide range of high efficiency cast iron boilers to fit small and large applications.

Water, wastewater, HVAC pumps and plumbing booster pump packages.

HVAC, OEM, Industrial metal hoses, seismic connectors and expansion joints.

Complete valve product line for all HVAC, irrigation and custom applications.

Domestic water storage tanks, in glass lined, epoxy lined, stainless and duplex stainless. Custom pressure vessels, ASME code shop.

Wide range of high-efficiency hydronic heating and DHW products, boilers and water heating.

Complete line of vertical lineshaft turbine, submersible, jets and booster pumps.

Factory made flue, chimney and ventilation systems covering wide variety of applications.

Domestic manufacturer of temperature and pressure instruments.

Engineered water pumping systems, packaged heating and chilled water plants, fire pump packages.

Condensate neutralization kits, active tanks, pumps, inline tubes and vertical canisters

Steam specialties including valves, steam traps, vacuum breakers, condensate and pressure powered condensate pumps.

Complete line of water, wastewater, process water treatment equipment.

Boiler controls, valves and electronic tempering valves for domestic hot water.

Custom fan coils and air handlers.

Large commercial boiler
